

Studio Activity 5: Art History

You will be required to know these 25 pieces of art and use them throughout the semester

Why should we know art, artists and how its fits into history, life and humanity? **Aesthetics** are an ever changing highly debatable topic that melds personal beliefs and cultural norms. It is essential that you know what you think is beauty, what is “art” and what is worthy of representing you in life. It will change, it will grow and you will be amazed.

The following table needs to be copied into a section of your sketchbook (if 5 per page = 5 total pages).

	Artists Name		Information		
	first	last	title of work	notes	sketch/image
1					
2					
3					
4					
5					
6					
7					
8					
9					
10

17					
18					
19					
20					
21					
22					
23					
24					
25					

Today I will preview all 25. It’s just the “show” part of the show and tell. You will also see several clips of other artist talking about their work/why they do it and how art impacts real people.

Enjoy the exposure – impressing me today is getting the chart set up and taking tiny notes in the margins about art, artists, videos you want to come back to. I completely expect you to cite artists, artworks topics, etc that inspire your work in this class in your reflection blogs, so start paying attention now. Use the information later.
