## Studio Activity 1: Exploring Line & Shape

Line- path moving point across a surface or through space

How many **different looking kinds of lines** can you make with **6 different media (what you use to create with)**?

In your sketchbook devote a two-page spread\* to a doodle – free choice doodle- that explores all the **different looking kinds of lines** you can make with **6 different media**.

*Note: Doodles usually work best with a theme – geometric shapes, floral, mandala, a word/name, repeated image. Choose a theme that you hope communicates something about yourself. It could be something as simple as a favorite color or as complex as the idea of world peace.*

*\*two page spread in your sketchbook takes up two pages*

Some inspiration for your doodling spread
