Artistic Problems:

select two

- A- Rework Project 1 or make any of our small skills projects into a BIG project

This work will be bigger, better, more complex and visually appealing than the previous work – it will require a lot of “out of the box” thinking and research to elevate a “skill building” assignment into a full blown art work.

- B- Create an abstract self portrait that uses color to express meaning (This work needs to be based on a master artist, independent research must be done)
- C- Create a landscape from multiple sources that shows depth, has a full range of values AND has exceptional use of a value method in your choice of media
- D- Take a photo (subject of your choice) print it out at 5 x 7 size and recreate it 3 times larger using grid system of enlargement
